THE INTERWEAVING OF OFFICE SPACE AND NATURAL ELEMENTS

办公场所与自然元素的交织

郁金香椅的灵感来自于优雅而端庄的郁金香，它以其丰富的花色和象征胜利与美好的含义而广受喜爱。设计师提炼出郁金香的形态特征：由上而下渐收，一瓣包裹另一瓣，在花瓣底部呈现圆弧形态的生长规律，这些被应用在椅子的靠背、扶手和座面。椅子上部设计饱满圆润蓬松，仿若花瓣的头部，细腻地展现出花瓣的纹理和生动的立体感。而在转折处，座面底部逐渐收紧，如同花瓣末端的形态，整体设计既圆润又生动饱满。

The inspiration for the TULIP chair comes from the elegant and dignified tulip flower, which are widely loved for their rich colors and meanings symbolizing victory and beauty. The designer extracted the morphological characteristics of the tulip: the gradual tapering from top to bottom, with each petal enveloping another, and the curved growth pattern at the base of the petals. These elements are applied into the chair's backrest, armrests, and seat. The design of the upper part of the chair is full, rounded and fluffy, resembling the head of a petal, delicately presenting the texture and vivid three-dimensional sense of petals. At the transition points, the seat gradually narrows towards the base, showing the form of a tulip's tip. Overall, the design is both rounded and dynamically full, capturing the essence of the tulip in its entirety.

CHAIR

郁金香椅适用于多种场景，如会议、餐饮、休闲、接待、角落、过道等各类空间。

The TULIP chair is versatile, ideal for meetings, dining, leisure, reception, corners, hallways and more.

设计师通过模拟郁金香花瓣的形态，为椅子创造了一种独特的舒适度。软体部分设计考虑到人体曲线，提供均匀的支撑力，有效地减少长时间坐着带来的不适感。这种设计不仅注重功能性，还散发出一种充满力量感的美学。

The designer has created a unique comfort in the chair by mimicking the form of tulip petals. The design of the soft parts considers the curves of the human body, providing even support and effectively reducing discomfort from prolonged sitting. This design not only focuses on functionality, but also exudes a sense of strength and beauty.

NATURAL RHYTHM AND INSPIRING CREATIVITY

自然韵律·灵感迸发

春藤，以其独特生长方式和优雅形态，成为了设计师的灵感源泉。设计师巧妙地捕捉了春藤的精髓，将其融入到沙发的每一个细节中。沙发的线条流畅而富有动感，仿佛春藤的藤蔓在空间中自由蔓延，给人一种生机勃勃的感觉。

With its unique growth pattern and elegant form, spring vine has become a inspiration source for designers. The designer has skillfully captured the essence of spring vine and integrated it into every detail of the sofa. The sofa's lines are smooth and dynamic, echoing the vines freely spreading in space, creating a vibrant and lively atmosphere.

春藤沙发适用于商务区和办公室，还能融入等候区和休闲区等各种交流空间。

The VINE sofa seamlessly fits into business areas and offices, as well as various communication spaces like waiting and lounge areas.

春藤沙发的曲线设计以其自然流畅、动感活力和舒适实用的特点，成为了现代家居设计中的一道亮丽风景线。它不仅满足了人们对于美好生活的追求和向往，也为家居空间增添了更多的生机和活力。

The curved design of the VINE sofa, characterized by its natural flow, dynamic energy, and practical comfort, stands as a striking feature in modern home decor. It not only meets people's aspirations for a beautiful life but also adds vitality and vigor to living spaces.

BRANCH

枝丫沙发

设计师以“纳自然之形，建空间之意”为设计理念，提炼出枝桠舒展的造型语言，旨在探寻自然的灵动与空间的深意。柔软蓬松的软包叠加在硬朗的脚架上，如同软体为叶，自然柔美；而脚架为枝，曲折有度；两者巧妙结合，形成了一种富有节奏和层次感的设计美学。

The designer's concept of "embracing natural forms to shape spatial meaning" inspired the creation of a design language characterized by branching and stretching. Exploring the dynamism of nature, the design features soft, fluffy upholstery layered upon sturdy frames. The soft elements represent leaves, imbued with natural grace, while the frames represent branches, elegantly curved and proportioned. They create rhythm and depth, through their skillful combination.

The artistic integration of **WORK AND LIFE**

工作与生活的艺术融合

设计不仅具有美学上的价值，还充分考虑了情感和功能的需求。软包的柔软和蓬松，让人感受到自然的温暖和舒适；同时，脚架的坚硬和曲折则给人一种稳定和支撑的感觉。这种情感与功能的融合，使得这款设计更具人性化和实用性。

The design not only holds aesthetic value but also considers emotional and functional needs. The soft and plush upholstery offers a sense of natural warmth and comfort, while the sturdy and curving frame provides stability and support. This fusion of emotion and function enhances the design's human-centered approach and practicality.

BUTTERFLY

蝴蝶沙发

蝴蝶沙发的灵感源自大自然中蝴蝶的生动形象：蝴蝶破茧而出，象征着勇敢与自由；蝴蝶翩翩起舞，则寓意生命的美好与自由飞翔。设计师巧妙运用了蝴蝶优美而饱满的线条，使整体设计展现出一种流动而灵动的美感。沙发的扶手部分特别强调了蝴蝶翅膀的曲线，每一处弧线和转折仿佛呈现蝴蝶翩翩起舞的优雅姿态，为空间增添了一份轻松愉悦的视觉享受。

The BUTTERFLY sofa is inspired by the vivid imagery of butterflies in nature: emerging from cocoons symbolizes bravery and freedom, while their graceful dance signifies the beauty and free spirit of life. The designer skillfully incorporates the butterfly's elegant and full lines, creating a flowing and dynamic aesthetic in the overall design. The sofa's armrests specifically emphasize the curves of butterfly wings, with every arc and turn reminiscent of the graceful posture of butterflies in flight, adding a relaxed and delightful visual enjoyment to any space.

蝴蝶沙发的后背嵌有金属装饰条，这一设计细节赋予沙发高贵的品质感和多维的层次感。这种设计不仅使沙发充满了生命力和活力，同时也展现出其独特的艺术氛围。沙发模块的各种组合使空间更富有多多样性和灵活性，能够满足不同的功能和审美需求。

The back of BUTTERFLY sofa features inset metal decorative strips, adding a sense of nobility and multidimensional depth to its design. This detail not only infuses the sofa with vitality and vibrancy but also shows its unique artistic atmosphere. The various modular combinations of the sofa enhance space with diversity and flexibility, catering to different functional and aesthetic preferences.

CREATING INTERSECTING STYLES IN COMPOSITE SPACES

营造风格交错的复合场域

万物墩的灵感来自于意大利抽象艺术家Piero dorazio的绘画，他以大气的网格画而著称，网格与流畅的笔触交叉，色彩和纹理生动流动。设计师从中提炼出弧形、线性和纵横交错的形态，弧线象征着自然万物的有机形态，反映了自然万物生长规律的结构。这款设计既源于生活，也深受自然启发，是对自然与艺术完美融合的体现。

The inspiration for the ALL pouf comes from the paintings of the Italian abstract artist Piero Dorazio, renowned for his atmospheric grid works where grids intersect with flowing brushstrokes, creating vivid movements of color and texture. The designer distills from this the forms of arcs, lines, and intersecting patterns, where arcs symbolize the organic shapes of nature and reflect the structural growth patterns found in the natural world. This design is rooted in life and deeply inspired by nature, embodying a perfect fusion of natural elements and artistic expression.

运用立体滚边工艺，突出设计语言，跃然呈现在座面。弧线交错延伸至底部，十分灵动。

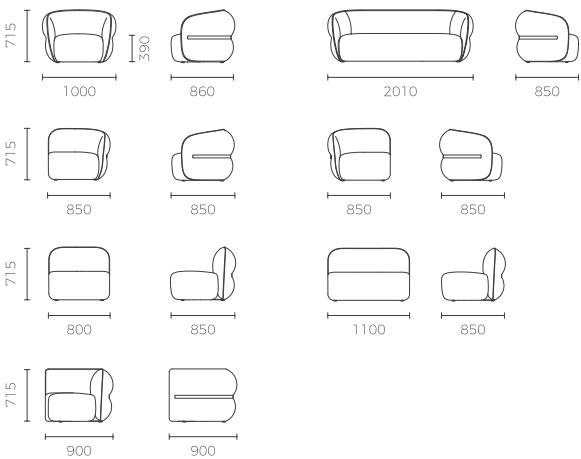

Utilizing tridimensional piping for edge binding craftsmanship, highlighting the design language, vividly presented on the seat with dynamic intersecting arcs extending to the base.
